**INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Madam/Sir:

To comply with 37 CFR §1.97 and §1.98, Applicants submit the enclosed Form HDP-1449. Applicants also submit copies of all documents listed on the Form HDP-1449 except where such documents are U.S. patents or published U.S. patent applications.

In accordance with MPEP §609 and §707.05(b), Applicants request that each document listed be given thorough consideration, and that the Examiner cite each document of record in the prosecution history of the above-referenced application by initialing the Form HDP-1449 next to each document. Applicants request such initialing even if the Examiner does not consider: (1) a listed document to be sufficiently pertinent to use in a rejection; (2) a document to be prior art for any reason; or (3) that the guidelines for citation have been fully complied with respecting a particular document. Applicants make this request so that each document becomes cited on the face of a patent issuing from the above-referenced application.

Applicants submit this Information Disclosure Statement in compliance with the duty to disclose information material to patentability under 37 CFR §1.5, but by listing such documents Applicants are not admitting that such documents are necessarily relevant or prior art.

Applicants intend no representation that the listed documents represent the results of a complete search. Applicants anticipate that the Examiner, in the normal course of examination, will make

EV 31,140,816 US

an independent search consistent with 37 CFR §1.104(a) and §1.106(b), and, in the course of such search, will review for relevance every document listed on the attached form even if not initialed.

Applicants make no representation as to the accuracy of any translation provided with this Information Disclosure Statement.

Applicants presume that the Examiner is aware of the issues raised in the allowed parent application (*i.e.*, U.S. Appl. No. 10/142,737), and will take them into account when examining the instant application. Applicants also presume that the Examiner has access to the file history for U.S. Appl. No. 10/291,983 (which claims priority to the parent application as a CIP), and will take into account any issues raised in that application. If these presumptions are incorrect, Applicants can provide copies of the substantive Office actions from the parent and CIP applications upon the Examiner's request.

Finally, the attached Form 1449 cites several U.S. applications and U.S. patents that are not related to the instant application through a priority claim. Applicants presume that the Examiner has access to the file histories of the cited applications and patents (as well as the file histories of the applications to which the cited applications and patents claim priority), and will review those file histories to the extent the Examiner feels they may be material to the patentability of the instant application. For the Examiner's convenience, however, Applicants have enclosed the substantive Office actions from the file histories of Reference Nos. 1-4, 6, and 14. Upon the Examiner's request, Applicants also can provide copies of the substantive Office actions from the file histories of any other cited U.S. application or U.S. patent, to the extent Applicants have such Office actions in their possession.
